Departmental Highlights:

- Meetings with representatives from DOT have been very fruitful
 - Keys to signal cabinets – JP will provide these to you.
 - Speed Checked by Radar – we do not stock these signs. As a municipality, you can order these directly from our Corrections Dept., located in Bunn, NC. The contact is Tommy May (919) 496-3095. Once you receive them, we would need to approve the locations where they would be installed.
 - Pilot School Road – we are recommending that a 45 mph municipal ordinance be established, beginning at the City Limit and ending at Old US 29-70. We would keep the existing 35 mph School Zone ordinance.
 - Thomasville Primary School – we will examine the queue, based on the number of vehicles you provided us, and the additional info.
 - Thomasville High/Middle School – JP and I will need to make an onsite visit to make the determination of another crosswalk.
 - Kendall Mill – It is my understanding that the timing on the signal has been upgraded. With the speed limit, JP said that the existing curve warning signs would take precedence, and would conflict with any posted speed limit signs.
 - I will be making recommendations to the Public Safety Committee next month regarding these issues.
 - Lt Raymond Widener served as an assessor for an assessment center in Portsmouth, Va. Lt. Kim Sebastian participated in a Police Executive Research Forum panel discussion in Washington, DC on law enforcement response to sexual assault investigations.
- The Special Operations Unit (Vice/Narcotics) has completed an undercover campaign. During this campaign the Unit used information passed on by Field Operations officers and completed buys. Now that it is complete, the packets were given back to the officers who provided the information to make the arrests.
- Community Satisfaction/Safety survey—working with the IT department we have completed a community survey that can be completed on-line. We will be using this information to evaluate our service delivery and to revise our strategic plan.
